9/1/2015 to 8/31/2027, Provider ID 365798

This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (PACE) through the Joint Program Provider Approval of CE Approved and Expert Dental Solutions. CE Approved is approved for awarding FAGD/MAGD credit.

COURSE CONTENT

Through this intensive practical program, each surgeon will perform zygomatic implant cases under IV sedation. This comprehensive training will cover the entire process of planning and installing zygomatic implants, including:

- **Case Evaluation and Planning:**
 - Understanding the All-on-4 Concept, including Standard, Hybrid, and Zygoma/Transnasal/Pterygoid variations
 - Criteria for selecting appropriate cases to ensure optimal outcomes
- **Prosthetic and Digital Workflow:**
 - Aesthetic and functional prosthetic evaluation
 - Utilizing digital workflows, including 3D printing and scanning protocols
- **Virtual Surgical Planning:**
 - Implementing virtual surgical planning using Smart Prototypes for precise outcomes
- **Predictive Surgical Protocols:**
 - Establishing and following predictive protocols to enhance surgical accuracy and success
- **Complication Management:**
 - Techniques for avoiding and managing surgical complications effectively
- **Advanced Techniques for Immediate Loading:**
 - Expert tips on delivering immediate loading prostheses for enhanced patient satisfaction

CE Approved is approved for awarding FAGD/MAGD credit.

LEARNING OBJECTIVES

Understand the Digital Full Arch Graftless Concept:

- Describe the principles of the Digital Full Arch Graftless Concept.
- Explain the techniques and protocols involved in immediate loading.

Apply Treatment Planning Techniques:

- Demonstrate the ability to plan zygomatic implant cases using digital tools.
- Utilize digital workflows, including 3D printing and scanning protocols, in treatment planning.

Perform Zygomatic Implant Surgeries:

- Practice surgical techniques on Smart Prototypes.
- Operate on live patients to place zygomatic implants.
- Employ immediate loading protocols during surgeries.

Analyze Surgical Outcomes:

- Analyze case studies to identify key elements of successful zygomatic implant placements.
- Differentiate between various case types and necessary modifications (e.g., Transnasal or Pterygoid implants).

Evaluate Complications and Management Strategies:

- Evaluate potential surgical complications and their management.
- Critique surgical outcomes to develop improved techniques and protocols.

Create Comprehensive Treatment Plans:

- Design individualized treatment plans for patients requiring zygomatic implants.
- Develop advanced strategies for immediate prosthesis delivery.

Course

Director

Dr. Priscila Casado

As an Adjunct Professor at the Fluminense Federal University, she coordinates the Implant Dentistry Specialization Program and teaches in the Postgraduate Program in Dentistry (Doctorate and Master's levels). Her educational background includes a degree in Dentistry from UFF (2003), a specialization in Implant Dentistry, a Master's in Dentistry - Dental Clinics from UFF (2005), and a PhD in Morphological Sciences from the Federal University of Rio de Janeiro (2009).

Course Instructors

Dr. Fernando Giovanella
DDS, MS
Oral and Maxillofacial Surgeon

Dr. Carlos Mourao
DDS, MS, PhD
Oral and Maxillofacial Surgeon

Where is our Dental Implant course held?

Federal Fluminense University

Rio de Janeiro - Brazil

The Fluminense Federal University School of Dentistry, located in Niterói, Rio de Janeiro, Brazil, is a prestigious institution known for its excellence in dental education and research. It offers comprehensive undergraduate and postgraduate programs, including specializations, master's, and doctoral degrees. Renowned for its state-of-the-art facilities and experienced faculty, the school emphasizes innovation in fields like periodontics, implant dentistry, and oral surgery. It also plays a significant role in community outreach, providing quality dental care to underserved populations.

Not only is it an ideal location for conducting dental implant classes, but the training will also have an added social aspect: all practical cases will be free for patients due to the high demand for treatments among the population.

What is included:

- Live patient surgery training
- 4★Hotel accommodation with breakfast included
- Lunch provided during the course
- Transportation between the airport and hotel (round trip)
- Transportation between the hotel and university (daily round trip)
- Dinner featuring Brazilian cuisine on the final day of the course

Course Program

Day 1

9:00 am - 12:30 pm: Lecture - Digital Full Arch Graftless Concept / Treatment Planning / Techniques / Immediate Loading

1:00 - 1:30 pm: Lunch

1:30 - 5 pm: Hands-on (Zygomatic implant surgery on patients' prototypes)

Day 2

9:00 am - 2:00 pm: Surgery 1 (Zygomatic implant placement)

2:00 - 3:00 pm: Lunch

3:00 - 5 pm: Surgical technique step-by-step: Hands-on with Smart Prototype (Case Study of Patient 2)

5:00 - 6 pm: Cases discussions

Day 3

9:00 am - 2:00 pm: Surgery 2 (Zygomatic implant placement)

2:00 - 3:00 pm: Lunch

3:00 - 5 pm: Surgical technique step-by-step: Hands-on with Smart Prototype (Case Study of Patient 3)

5:00 - 6 pm: Cases discussions

Day 4

9:00 am - 2:00 pm: Surgery 3 (Zygomatic implant placement)

2:00 - 3:00 pm: Lunch

3:00 - 5:00 - 6 pm: Cases discussions

6:00 - 6:30 pm: Course feedback (PACE)

6:30 - 9:00 pm: Special dinner

* Depending on the patient's needs, surgical planning may include additional procedures such as Transnasal or Pterygoid implants, in addition to Zygomatic implants.
